submarine, according to the official announcement, was
to-day by the British torpedo boat destroyer Ariel. The
of the submarine's crew surrendered and were saved.
location of the sinking of the submarine is not disclosed in

The location or use making or use summarize is not questioned in the Admiralty anonuncement.

The captured crew will be deprived of all special privileges, as us does in the case of the men on board the U.S., and they will be held for trial in connection with the sinking of merchant vessels.

The U.SO probably is the submarine which yesterday sunk the other cases.

SHOT AT HIS HOME IN LINCOLN COUNTY

(By Times Special Gable.)
Luction, March 10, 236 p.m.—The German submarine U-20 has been sent to the bottom, according to a statement issued to-day by the British Admiralty.

George Hogarth, Formerly of This City, is

Suicide Suspected, But May Have Been Either Murder or Accident.

George Hogarth, who for a number of years carried on a real estate business at 4 John street north, this city, and lived at 222 Maple avenue, is dead at his home in North Grimsby, and Dr. Alexander, coroner, of Grimsby, and a jusy under David Allan, foreman, are investi-

set November, Mr. Hogarth and his family, constating of his wife and two beautiful little m, aged 6 and 2 years, moved to North Grimsby where he had purchased a farm.

Testerday, about noon, Hogarth staggered into his house, with a stream of blood flowing rom a wound in his head, and exclaimed to his wife, "They've goin m." He soon became unclous and died in about half an hour, without having given any further explanation. About 75 feet from his house stands a small workshop in which is a carpenter's banch and tole. It. Hobarth was working in this place just before the time of the shooting. After his engagement was made and his rifle was found in the warkshop, apparently having been really discharged.

The county constable was notified and began an investigation. As far as could be learned there was no one disc in the workshop at the time, but that is a matter which the coroner will have enquired into. Of the three theories, murder, suicide or accident, the investigations so far made lead to the belief that Hogarth's death was either accident or suicide, and the latter is thought to be most likely.

The jury under Coroner Alexander viewed the body yesterday afternoon and adjourned to treat Monday afternoon.

Relatives of deceased declare that he had no enemies as far as they know, and what he could mean by his last words is somewhat of a mystery, pointing, seemingly, to the shooting having been done by some one else, while they cannot think who would possibly have done it.

Britain Sees Germanic Allies Losing On All Fronts.

The Balkan Races Clamor For Union With the Allies.

(By Times Special Cable.)

London, March 10.—As Britain sees it, not since the war began has the situation, both on land and sea, been more favorable to the allies than it is to-day. Onel dent opinions of this nature are finding constant expression in London.

Showly but surely the allied (lest is creeping toward Constantinopia, and thus opening another road to Berlin; the retirement of Field Marchal Yon. Hindenburg's army from North Poland is at the be imminent by many British observers of affairs; in that we sat the allies claim the ascendancy all along the line, although no declaive engagements are being fought, while in the Balkana and in Italy, according to British interpretation of the political news from these countries, the majority is claimor ing for intervention on the side of Great Britain, France and Russi a. This is said to be notably true in Greece and Roumanta, in spit cof the fact that the Governments of these countries still cling outwardly to the policy of neutrality.
